FINCA DE LAS SALINAS & CASA RURAL VISTAS SALINAS

Rural hotels—holidays away from the noise

Get in touch with the history of Lanzarote and spend your holiday in one of the old manor houses of the island. The Finca de las Salinas in Yaiza was built in the 18th century, a little later bought by the owners of the salt pans of Janubio and is still owned by family members. The actual owners, Mari Carmen Lleó Lleó and Santiago Espada Gómez, renovated the whole estate in 1996 and reopened it as one of the first rural hotels on the island.

In the splendid main house you feel transported back into ancient times. Thick walls, generous patios, a traditional bodega and many details of agriculture and the work in the salt pans, document the past. In this building there are two suites, the reception,

big salons and the breakfast room. Close by, the adjacent buildings on the side of the manor were changed into a magnificent green oasis with 17 rooms, where there is total luxury and you cannot help but be tempted to relax and spend a wonderful time. A heated pool in the centre with spectacular views of the Fire Mountains as well as additional accommodation, a tennis court, covered Jacuzzi, gym, bodega, billiard room, sauna and massage rooms give you everything that you could wish for.

The main attraction for everybody who is looking for holidaying far away from tourism is the quietness of the village of Yaiza. Here you get up to the singing of the birds and in the evening you can enjoy the impressive sunsets from your

private terrace. All of that in total peace and an ambience where warm colours and friendly service predominate.

Two years ago Mari Carmen and Santiago extended their domain and close to the salt pans of Janubio and the little village of La Hoya, opened the apartments of Vistas Salinas, where you can have total seclusion. Equipped with cooking facilities you can enjoy self-catering in these magnificent surroundings with a spectacular landscape, incorporating the salt pans - a place from which to start to explore the island.
