WHICH IS YOURS?

A holiday means
free time

For a lot of people their perfect holiday consists of a journey to a sunny place with their hotel and meals booked in advance. Unfortunately once they have arrived, the reality is far different from that which they expected, this tends to happen far too often.

The hotel only serves breakfast up to 10.00 o'clock so you have to get up early, the last thing you want to do on holiday. The quality of the food is always a gamble, if it isn't up to your expectations you have to live with it for two to three weeks because you have already paid for it. If in addition your maid arrives at 8.00 o'clock to clean your room, or your neighbours have a party each night so you can't sleep, the communal pool is so packed with people that you can hardly see the water, then the best holiday plans can turn into a disaster.

All these problems can easily be avoided if you rent a bungalow or house for your holidays. Bungalows like Los Volcanes in Playa Blanca offer all the comfort that you want. No early morning call, breakfast on your own terrace whenever you like, satellite television, air conditioning, 24 hour service which you can use if you want, fresh bread. Plus of course a private swimming pool where you and your family can relax undisturbed. All of this is on the front line with sea views and access to the beach promenade, here you can walk to the exclusive sports harbour or to the town beaches. The bungalows are for 2 to 6 people and are perfectly positioned to get to know Playa Blanca and to have a closer look at real estate offers.

Allow yourself five star luxury for your stay on the Island and say goodbye to mass tourism.
