

The decision to buy a package holiday which can include flight, hotel, food and sometimes even excursions, often seems the easiest way, but if you have to set your alarm to get up early for breakfast or your island tour starts at 8.00 in the morning, you begin to ask yourself "is this a relaxing holiday?"

Lanzarote is a small island and it is so easy to explore it on your own, if you rent a car you and your family can take all the time you want to travel around, you can pause to take photographs of some of the breathtaking scenery, or have a leisurely lunch in a typical canarian restaurant. A rented bungalow offers the perfect surroundings from which you can plan your day. If you prefer you can laze the time away in your hammock by your own private pool enjoying the sun, reading a book, all in perfect tranquillity without any outside interference.

The bungalows Los Volcanes, located on the front line next to the exclusive sports harbour Marina Rubicón, can accommodate up to six people and are the number one address for a holiday where you are in control. In a spacious and very comfortable atmosphere you will find privacy close to the sea, where you can totally relax. Breakfast on your own terrace, swim in your private pool, you have freedom to spend an
